<i>If yes, list and outline components and interactions with proposed or existing policies.</i>	
Where relevant, is funding for the policy to be demand driven or a capped amount?	Capped.
Will third parties (for instance the States/Territories) have a role in funding or delivering the policy? <i>If yes, is the Australian Government contribution capped, with additional costs to be met by third parties, or is another funding formula envisaged?</i>	The Department of Industry, Science, Energy and Resources will run a tender process to select a provider to deliver energy advisory consultations.
Are there associated savings, offsets or expenses? <i>If yes, please provide details.</i>	No.
Description of policy (note: where the request to cost a proposal differs from the announced policy, the costing will be on the basis of information provided in the costing request)	
What are the key assumptions that have been made in the policy including: (continued)	
Does the policy relate to a previous budget measure? <i>If yes, which measure?</i>	Yes, this proposal builds on and expands the 2018-19 Budget measure which provided \$11.7m for the first round of the Business Energy Advice Program.
If the proposal would change an existing measure, are savings expected from the departmental costs of implementing the program? Will funding/cost require indexation? <i>If yes, list factors used.</i>	No.
What are the estimated costs each year? Are these provided on a cash or fiscal basis?	2022-23 \$3.1 million 2023-24 \$6.9 million 2024-25 \$4.7 million 2025-26 \$3.2 million Cash basis.
Are the revenue and/or expense costs likely to be significantly different beyond the forward estimates period? <i>If yes, why?</i>	No.

What assumptions have been made in deriving the expected financial impact in the party costing (please provide information on the data sources used to develop the policy)?	Not applicable.
Has the policy been costed by a third party? <i>If yes, can you provide a copy of this costing and its assumptions?</i>	No.
What is the expected community impact of the policy? How many people or businesses will be affected by the policy? What is the likely take up? What is the basis for these impact assessments/assumptions?	The extra investment is expected to deliver an additional 15,000 energy advisory sessions.
<i>Note: it will be up to the professional judgment of the relevant Secretary as to whether these assumptions are adopted in a Treasury or Finance costing of the policy.</i>	
Administration of policy	
Who will administer the policy (for example, Australian Government entity, the States, non-government organisation, etc.)?	The Department of Industry, Science, Energy and Resources.
Should departmental expenses associated with this policy be included in this costing? <i>If no, will the Australian Government Entity be expected to absorb expenses associated with this policy?</i> <i>If yes, please specify the key assumptions, including whether departmental costs are expected with respect to program management (by policy agencies) and additional transactions/processing (by service delivery agencies).</i>	Yes.
Intended date of implementation.	1 July 2022
Are there transitional arrangements associated with policy implementation?	No.
Will the policy be ongoing or terminating*?	Terminating
If terminating: What is the intended date of termination?	30 June 2026.

Are there any transitional arrangements associated with the conclusion of the policy?	
List major data sources utilised to develop policy (for example, ABS cat. no. 3201.0).	Not applicable.
Are there any other assumptions that need to be considered?	Not applicable.

* Ongoing policies continue indefinitely (until a decision is made to cease or alter the program). Terminating measures end on a date set out in the initial policy and a further decision is required to continue the program beyond this date.
