## **Background information**

### **Costing methodology used:**

The costing assumes:

- a specified amount of \$4.0 million is paid over four years from 2022-23, as per the funding profile provided in the request;
- grants would be provided on a matched basis for eligible expenditure by wine producers, consistent with the original Wine Export Grants program (included in the 2016-17 Budget measure *Ten Year Enterprise Tax Plan — wine equalisation tax rebate integrity and wine tourism funding*); and
- applications for the grants would be received and assessed on a demand driven basis until the grant program's funds for that year have been fully committed, whichever comes first.
